

DASH FRESH

Article code: 1103

**INGENIOUS
CAR CARE**

Products for professionals

Description:

Dash Fresh gives the interior plastic parts and dashboard a new and original look.

Benefits:

- Doesn't leave greasy residue
- Silk matt finish and original finish
- Has a light cleansing effect
- Pleasant scent
- Fast end result
- Economical in use compared to aerosol cockpit spray

Application:

Dash Fresh is a nourishing lotion for all plastic parts in the interior of the car. Dash Fresh provides a silk matt and original finish to handles, door panels, dashboard, consoles and controls. It can also be used for wooden mouldings and leather surfaces. It has a light cleaning effect when applied. Dash Fresh is available as a silicone-free and silicone-based product.

Directions for use:

Dash Fresh can be applied directly, but when an interior to be treated is very dirty, it must first be pre-cleaned with Interior Cleaner.

If the interior is not too dirty, then Dash Fresh can be used immediately. Apply Dash Fresh undiluted to the surface to be treated using a clean cloth or application sponge. Allow the product to soak in for a few seconds to a minute and rub it with a clean cloth to obtain an even and renewed end result. Always shake well before use.

Tips & tricks:

- With the help of Dash Fresh applied on a brush, even the hard to reach places such as grids can be treated.
- With Dash Fresh you can also get rubber mats back to colour. Spray the cleaned mat with Dash Fresh and let it dry for a few minutes. Then rub with a clean cloth for an even and renewed end result.
