

09167 - SPEED-O-DRY ADDITIVE

1000 g +
20-60 g

DESCRIPTION

Additive based on special organometallic compounds dissolved in fast evaporation solvents.

USE

Suitable to accelerate the drying of products based on two-pack acrylic and polyurethane resins. According to the quantity used, it reduces the through-drying time up to 50% in comparison with the product normally catalysed.

It is recommended to use the product by low baking to obtain lower drying times than those indicated in the technical data sheet of the mixed product.

CHARACTERISTICS

- Quick drying
- Practical use
- Good optical properties

APPLICATION

Mixing ratio:

	volume	weight
2:1 mixing ratio		
MACROFAN MAC1 / HS CLEARCOATS		1000 g
HS HARDENERS		500 g
09167 SPEED-O-DRY ADDITIVE		30-60 g
00740-00741 THINNER AUTOREFINISHING		0-100 g
04004-04109 GREEN TI FILLER		
HARDENER	1000 ml	1000 g
	200 ml	130 g
09167 SPEED-O-DRY ADDITIVE	20-40 ml	20-30 g
00740-00741 THINNER AUTOREFINISHING	50-250 ml	20-170 g

NOTES

The addition of additives replaces thinner quantities.

The additive used according to the above percentages accelerates of 30-50% the film formation, according to the temperature.

Higher addition of this product can cause very rigid films and then cracking and bubbles formation.

Its use also decreases the aesthetical appearance of the top coats.

The additive must only be used with normal hardeners and not with spot repair or fast hardeners.

We recommend great care and we do not suggest its use for air drying in case of high relative humidity.
